# HURRY!

Most of us are in a hurry these days; in fact, one of the most predominant characteristics of our modern mode of living is the ever-increasing speed which is so much in evidence in our business and personal life. What with speedier methods being employed and the rapidly changing conditions, it becomes more apparent that unless you keep your business service constantly in front of the public, your service will be forgotten and your business suffer.

To avoid being forgotten and to increase your business we would suggest that you advertise in the:—
